

PWM-CONT-ex

Compact earth resistance tester for safe areas & hazardous Ex-areas

Test lines in accordance with EN-61010-031 CAT III
Cap removable for CAT II environments

Faster and more energy-efficient

manageable resistance measuring device for fast testing according to EN/IEC 61557-4 of protective and grounding lines, equipotential bonding lines and lines at lightning arrester.

- Safe and universal between 10 mΩ and 2 MΩ
- High measurement current 0,2 A for Lo-Ω-range up to 10 Ω
- Fast compensation of measuring line per keypress
- Automatic pole change and storage of measurement results
